

From Logic to Dialectic

Dialectic is about refining logical thought, imagination, feeling and gratitude.

From Systems to Community

- shifting from logic to dialectic
- from a subject with its skills, systems and processes
- to conversations, dialogues and discussions
- by partaking in community

The goal of dialectic is not to have all the right answers but to learn to ask the right questions.

-The Liberal Arts Tradition

Enter the Conversation

- starting with "Did you know?"
- engaging "But why?"
- so to start ordering thinking and reasoning
- to arrive at truth

Contemplate and Ponder

Dialectic leads us to Eucharisteo prayer by way of remembering, thinking, reasoning, and humility.
